Answer

MINISTER OF STATE IN THE MINISTRY OF HUMAN RESOURCE DEVELOPMENT
(SHRI UPENDRA KUSHWAHA)
(a) to (e): No, Madam. This was not formally launched. However, it is informed that the National University of Educational Planning and Administration (NUEPA) has been annually collecting information on various educational indicators including enrolment of children through the Unified District Information System for Education (U-DISE). This is now being upgraded to include student-wise information with the unique ID of the student, to enable the tracking of students in all schools in the country to monitor dropouts, retention etc. To support this framework, an online web enabled database has been envisaged to capture data on schools, teachers and students.
